At Blue Northern Builders, you'll find all the expertise you need under one roof. From securing the ideal location to constructing your envisioned space, we take the guesswork out of your commercial building project.

BUILDING A LEGACY

Blue Northern Builders was established in 2002—but our groundwork was laid decades earlier, when founder Marc Davis decided to follow in his father's and grandfather's footsteps. As a fourth-generation builder, Blue Northern continues the family tradition of integrity, innovation, and impeccable craftsmanship. Our family-based company enjoys the pride in workmanship and effective communication that is essential to a job well done.

BUILDING STRONG TEAMS

The success of your project depends upon having a strong team. That is why we take care in choosing the right mix of individuals

for each project. We hand pick each team member for their skills and experience as they apply to the project scope.

BUILDING PROJECTS FROM A TO Z

Blue Northern's comprehensive approach lifts the weight from your shoulders. We take care of every detail, including space planning, pre-construction, budgeting, architectural drawings, guidance through the permitting process, and timely scheduling.

BUILDING PEACE OF MIND

Our clients build with confidence knowing we achieve the vision and goals of each project smoothly, on time, and within budget.

BUILDING RELATIONSHIPS

In our experience, the success of any construction project is directly related to the quality of the relationships involved. The Blue Northern team takes the time to cultivate strong partnerships with clients based on trust and mutual understanding. We are proud of the fact that client referrals account for around 80 percent of our business each year.

As our client, you can count on Blue Northern Builders to work closely with you to determine the scope of your project, define your objectives, and produce an outcome that everyone will take pride in.
